

Culture Change in Care Homes

The UK 'Butterfly Household'® Approach

Seeking Project Homes in the UK

Butterfly Care Homes continue to spread across the UK, Ireland, Canada and beyond.

In June 2015 the Dementiaville 3-part documentary on Channel 4 featured David Sheard as Series Consultant and an inspiring example of a Butterfly Care Home and The Butterfly Household Model of Care®.

We continue to seek further Care Homes who are wanting to create positive culture change.

“ David’s beliefs, values, boundless energy and passion have driven changes that to many were only a dream. His herculean effort has revolutionised the culture of care nationally and internationally. ”

(Judging panel 16th UK National Care Awards 2014)

UK Care Personality of the Year 2014

The Butterfly Household[®] Approach

*“The Butterfly Project is about injecting humanness and compassion. It focuses nurses and care workers back to this from task allocation, targets and efficiencies and creates a culture conducive to person-centred care. Its greatest impact is in creating Households and Butterfly skills for everyone to connect. It shifts the balance of power, by removing controlling care, enabling staff to become care partners. In addition it achieves a dramatic reduction in displays of behaviour, falls and staff sickness - creating a home where people want to **‘be together.’**”*

Anita Astle MBE, Managing Director, Wren Hall, Nottinghamshire, UK

A Butterfly Project

- Leadership mentoring on establishing the Butterfly Household Model[®] of Dementia Care.
- Modelling the approach with Nurses and Team Leaders during the day.
- Being A Star[®] Dementia Care Emotional Intelligence training.
- Qualitative Observational Methodology training.
- The “Look Checklist” - dementia specific environmental guidance.
- The “Inspiring: 50 Point Action Checklist Model of Care.”
- The “Being” approach to recruitment, learning and appraisal.
- The “Attached” new Culture Leadership style.
- Balancing Quality of Life and Quality of Service outcomes.
- The “Essence of being a Butterfly in dementia care.”
